

ABSTRACT

5 A stable skin care product containing a first composition comprising about
0.001% to about 10% of a retinoid; a second composition comprising about
0.0001% to about 50% of at least one retinoid booster and about 0.001% to about
10% of a phytoestrogen; a first compartment for storing the first composition; and
10 a second compartment for storing the second composition, the first and second
compartments being joined together.
